

Incident and Injury Free Thought Provoker

Hazard Identification

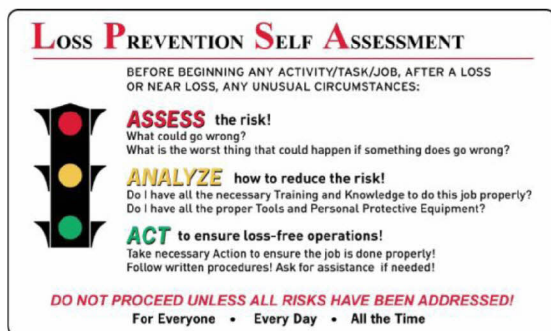

Are you still improving your Hazard Identification and Risk Recognition competencies?

Can you remember and recite all ten hazards on the Hazard ID tool?

What factors influence Risk?

Take Action

- Which Hazards impacted you at the worksite (and at home) that you weren't aware of before we introduced the Hazard ID tool?
- Before your next job – take out your Hazard ID tool, and while you are doing an LPSA “look” for hazards that you may not have thought of.
